

Figure 11.
How would You Rate Your Experience in This Dialogue?

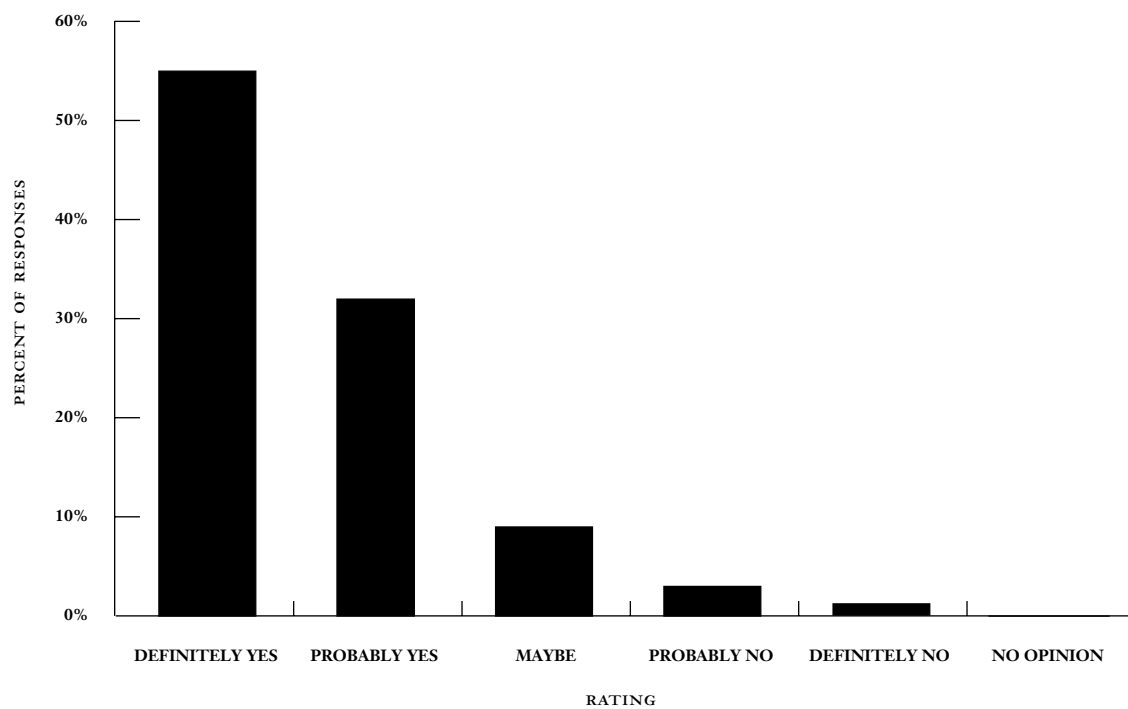

Figure 12.
Do You Think EPA Should Use Similar Dialogues in the Future?

Participants' written comments offered a more nuanced view of their satisfaction, serving up roughly even portions of compliments and criticisms. The issues and tensions raised in the comments foreshadow many of the themes discussed throughout the rest of this chapter:

- Some respondents lauded the number and diversity of participants; others cited various ways in which participation was unbalanced or biased.
